

# Interventional Radiology Procedures

## Vascular Diagnosis and Intervention

Angiography and Venography  
Angioplasty  
Vascular Stenting  
Catheter-directed Thrombolysis  
Dialysis Access and Interventions  
Endovascular Aneurysm Repair (Abdominal & Thoracic)  
Inferior Vena Cava Filter Placement and Removal  
Vascular Access Procedures  
Venous Access (including Infusaport Placement)

## Oncology Intervention

Biopsy  
Chemoembolization  
Cryoablation  
IRE (Irreversible Electroporation - NanoKnife)  
Microwave Ablation  
Radioembolization (Y90)

## (GI) Gastrointestinal Intervention

Biliary Drainage and Stenting  
Feeding Tube Placement  
Percutaneous Abscess Drainage  
Peritoneal Ports  
Transjugular Intrahepatic Portosystemic Shunt (TIPS)

## Embolization

AVM Embolization  
Catheter Embolization  
Embolization for the management of Arterial GI Bleeding  
Embolization for the management of Hemoptysis  
Embolization for the management of Trauma in the Chest & Abdomen  
Uterine Fibroid Embolization

## Urologic Intervention

Nephrostomy Placement  
Suprapubic Urinary Drainage  
Ureteral Stenting  
Varicocele Embolization

## Spine and Pain

Arthrography  
Caudal Steriod Injection  
Celiac Plexus Block  
Epidural Steriod Injection  
Facet Injection  
Kyphoplasty & Vertebroplasty  
Lumbar Puncture  
Myelography  
Nerve Root Block  
Sacroiliac Joint Injection  
Trigger Point Injection

## DOCTORS

Gary E. Allen, M.D.  
Whit J. Goodwin, M.D.  
Craig M. Steeds, M.D.

Megan M. Chang, M.D.  
M. Jordan Ray, M.D.  
Thomas E. St. Amour, M.D., Ph.D.

Brian P. Giles, M.D.  
Kenneth V. Robbins, M.D. (F.A.C.R.)
